

Dear all students,

The following companies will offer summer interns. If you are interested, please send your CVs to Eve **as soon as possible**. She will coordinate with these companies.

(1) ATAL Engineering Group. **1 intern**

**ATAL Environmental Engineering** is part of the Analogue Group of Companies and is recognized by the industry as a pioneer in the provision of environmental state-of-the-art-technologies and product applications.

From large-scale potable water and sewage treatment plants to small filtration and disinfection systems, we play a major role in the Mainland China, Macau and Hong Kong's water, sewage, solid waste and gas treatment industries.

Capitalizing on the extensive E & M capability of the ATAL Group, we have established ourselves as a leading environmental technology solutions' provider offering reliable, comprehensive, and superior performance.
