

Department of Physics
Summer Research Experience Program
Summer 2023 at Hong Kong Baptist University, Hong Kong

Program Aim

This is a one-month Summer Research Experience Program to provide opportunities to outstanding students who are interested to pursue research postgraduate study in Hong Kong to:-

- visit the [Hong Kong Baptist University](#) (HKBU) campus and learn the leading research projects and facilities in [Department of Physics](#);
- engage in a frontier research project under the supervision of a faculty advisor;
- understand the [Hong Kong PhD Fellowship Scheme](#) (HKPFS) established by the Research Grants Council (RGC) and research scholarships offered by HKBU.

Target Participant

- Outstanding Undergraduate/Master students in Physics or related disciplines who will graduate by summer 2024 or 2025.
- Students from mainland China and other foreign regions (e.g. India, Korea, Malaysia, Russia, Taiwan, Thailand, Turkey) are all welcomed.

Selection Criteria:

Decisions will be made based on the following merits:

- Academic excellence
- Research ability and potential
- Leadership ability and societal responsibility
- Communication and interpersonal skills

Our Research Area

Please click [here](#) to check the research area of our staff members.

How to apply?

Please complete the attached [application form](#) and send it

to venusmok@hkbu.edu.hk together with the following documents:

- Student ID card
- ID card
- Resume
- Academic transcript
- Graduate Certificate (if any)
- Publication list (if any)

Deadline:

Mainland China and Overseas Applicants: **April 9, 2023**

Local Applicants: **May 1, 2023**

Financial Support

The programme is FREE for the participants. The following support is provided by the Department of Physics.

Asian Students:

- Reimbursement of economy-class round-trip tickets between home town/university and Hong Kong (up to HK\$ 4,000 for participants from Asian regions)
- Local living allowances of HK\$ 8,500

Non-Asian students:

- Reimbursement of economy-class round-trip tickets between home town/university and Hong Kong (up to HK\$ 10,000 for participants from non-Asian regions)
- Local living allowances of HK\$ 8,500

Logistic Arrangement

Department will help to arrange:

- Reimbursement of transportation fee and provide living allowance
- Training visa for mainland student (or student from region with less than 30 days travel visa in HK)

Successful applicants will be required to arrange their own:

- Accommodations
- Entry permit to Hong Kong
- Insurance covering the program period
- Round-trip transportation between home region and Hong Kong (partially supported by Physics Department).
